### ELKO NEWS.

ELRO, May 8, 1880. Editor Gazette: Notwitstanding the unsettled condition of the weather, the farmers are busily engaged in plowing and seeding. Some are through putting in their crops and others have but begun. The ranchers are all jubilant over the prospects of an abundant harvest this year. There has been an abundance of snow in the mount ains, which insures a plentiful supply of water for irrigation purposes. During the last month rain and snow have fallen in considerable quantities on the foothills and in the valleys. It is still raining here.

THE MINING OUTLOOK

never was more favorable. Kinsley district, which is situated about fifty miles east of here, is flourishing. About 100 men are employed in this district taking out copper ore. Smelting works have been erected, and op-erations will commence soon. Rail-road district, situated twenty-five miles south of here, never looked better than at present. Several mines in this district are very extensively worked. Immense quantities of copper are produced in this camp. Several mines are very rich in silver. A triweekly stage is run from here to that camp, loaded each time with passengers and freight; no return passengers. Merrimae district is situated about 15 miles north of here. Prospecting will commence as soon as the snow off enough to permit men to get in there. It is believed that very rich silver mines will be discovered in this district. The placer mines north of here will be worked extensively during the coming summer.

THE REPUBLICAN COUNTY CONVENTION met here the 8th instant, and elected Blaine delegation to the State Convention. They were instructed to us all honorable means to secure a Blaine delegation to the National Convention. Eastern Nevada is unanim for Blaine, but if Grant should get the nomination they would stand in for him. At the meeting strong resolu-tions were adopted to procure Sharon's resignation.

### TRADE INACTIVE.

As in all other towns in Nevada, basiness is very dull. There are but three grocery stores doing business here and two dry goods stores; two butcher shops are running. Beef retails from 6 cents to 16% cents per pound. The saloons, of which there are some five or six, appear to be doing a pretty good business. There is little drunk-enness, however, which makes the

Justice's court very dull.

The Reform Club Entertainment.

The Reform Club meeting at the theatre on Saturday evening was not largely attended. The audience was not nearly so large as usual. The programme previously announced was carried out. The Rev. Mr. Mulholland of Milford gave an interesting address on "Recollections of the Mediterranean." He carried his hearers with him in fancy along the shores of that famous sea, touching at the points most celebrated in history and in song. It was a pleasing and profitable di-course, recalling to the memory many of the great events of the past, and re-plete with poetical suggestions.

Mr. Spencer feels confident of the truth of Miers' statement, which is considerably at variance with the published accounts, and his appearance and manner are favorable and prepossessing. He has a wife and four children, the eldest a girl of 7 years, the next are twin boys and the youngest a girl. He was a former resident of Biskiyou, but has lived in Lassen county seven years, a man of good education and a school teacher by occupation, very mild and gentlemanly in appearance, and the last man any one would select in a crowd as a murderer. Murdered by a Convict.

The Mr. McKelvey mentioned in the following press dispatch from Elmira, New York, was a brother of the Rev. C. V. McKelvey of Reno. The murder occurred last Thursday.

This morning while McKelvey, chief keeper of the Reformatory, was en-deavoring to punish an insubordinate convict, Edward Symonds, from New York, Symonds suddenly turned upon McKelvey and plunged a sharp-poed case knife into his stomach. Kelvey reeled from the cell into the corridor and fell dead. Symonds then handed the knife to an assistant keeper and was locked up in a dark cell McKelvey was from Detroit and an old officer of the Michigan State Prison. He leaves a wife and three children.

# A Manufacturer.

Needham is the furniture man of the own. He is constantly kept busy making up goods, which he does in good style. He sells great quantities of bedsteads, washstands, bureaus, presses, tables, clothes meat safes, and things of that sort, which he builds right here in Reno, and on which no middle men get a chance to double up the price two or three or furniture sets, or anything of East-ern or California make, he will order it from reliable parties, and thus can sell it cheap because he has no risk, no insurance, no interest. # THE PRINCE OF BILKS.

George Legrand Turns Up In Win. 30-

George Legrand has been bilking the people of Winnemucca to a con-siderable extent. The fellow has the most audacity of any fraud that has yet visited the State. He was expos nd by the GAZETTE for embezzling subperiptions to the Bacramente Democrat in Carson the Appeal denounced him as a swindler, and now the Silver State has exposed his rascalities. His latest dodge is to represent himself as being an agent of the Central Pacific Railroad Co., authorized to put up business directories, or railroad indicator as he calls them, in the several depots along the road. He is said to have received considerable money from business men in Winnemucca, for a promise to put their cards in a con-spicuous place in his so-called indica-tor. The colossal assurance of this zerre's first article concerning him appeared while he was operating in Reno, and he threatened, on the street, with a great show of virtuous indignation, to thrash on sight the man who wrote it. He took pains however, to keep away from this office thereafter. The cheek of the Govern ment mule is nothing to his.

A small frame building on the alley back of the postoffice is a fire breeder that is liable at any time to prove fruitful. It is not plastered nor ceiled inside, but is in the most inflammable possible state. Here a motley crowd of Indians, squaws and tramps congregate to smoke, drink and gamble. The bare floor is covered every night with a mixed mass of humanity worthy the pencil of a Hogarth. Here many whiskey bottle is emptied, and the brutal carousals often last the night The lodgers in the Arcade are often kept awake by the vulgar songs, the squealing of mahalas and the yells and oaths of drunken men. In this nest some drunken loafer will drop a match one of these times and the result will be that some half dozen houses will be burned.

# A Base Ball Match

Base ball bids fair to become a very popular game this season in Reno One club has already organized, and another nine musters every Sunday to play with them. The club has not yet adopted any name, but it is suggested that they be called the Roughs and their opponents the Readys. It may be stated, in accordance with this suggestion, that the Roughs played a match with the Readys yesterday afternoon in Hatch's field. Each had six innings and at the close the score stood Roughs 21, Readys 18. The Readys went first to the bat and led in the first two innings, after which each side led by turns to the close. The match was closely contested, and played with much spirit and a fair degree of skill. The game lasted from one to half past five o'clock.

In a recitation at the Reform Club entertainment on Saturday evening were the words "I am a soldier." They aroused an inebriate colored gentleman in the gallery, commonly known as "nigger Smith," and he shouted in reply: "I'm a soldier, myself, and a brave one too, and-don't you forget it." The immediate removal of the sable soldier was effected with some slight difficulty.
